

CALL FOR PAPERS

ICSDMCS 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDMCS 2021 : International Conference on Sports Data Mining and Computer Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sports Data Mining and Computer Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sports data mining
Data sources for sports
Research in sports statistics
Tools and systems for sports data analysis
Predictive modeling for sports and gaming
Multimedia and video analysis for sports
Web sports data extraction and visualization
Open source data mining tools for sports
Machine learning and data mining for sports analytics
Computer science in sport
Modelling, analysis and simulation of interaction and performance in sports
Informatics and analytics in sport contexts
Pattern recognition in data with a supervised learning task

Technological innovations in the monitoring of performance
Sports statistics and analyses
Sport performance and support
Data acquisition, processing and analysis
Modelling and simulation
Data bases
Multimedia and presentation
Motion analysis
Game and competition analysis
Training and performance analysis
Pattern recognition
Complex systems
Unconventional modelling
