**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEI 2021 : International Conference on Solar Energy for Industry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Solar Energy for Industry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Solar Buildings  
Solar Assisted District Heating and Cooling  
Solar Heat for Industrial Processes  
Domestic Hot Water and Space Heating  
Solar Air Conditioning and Refrigeration  
PV and PVT Systems for Buildings and Industry  
Solar Thermal Collectors and Solar Loop Components

Thermal Storage  
Testing and Certification  
System Simulation  
Solar Resource and Energy Meteorology  
Solar Education  
Renewable Energy Strategies and Policies
