

CALL FOR PAPERS

ICSEUH 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEUH 2021 : International Conference on Sustainable Energy Use in Houses is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Energy Use in Houses. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Low-energy house
Sustainable energy use in houses
Zero-energy and energy-plus buildings
Low-energy technology
The thermodynamics and energy use in buildings
Thermal energy storage

The energy efficiency gap
Improvements to heating, cooling, ventilation and water heating
Passive solar design and landscape
Lighting and electrical appliances
Energy-saving lighting in low-energy houses
Energy conservation in low-energy houses
