

CALL FOR PAPERS

ICSFCT 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSFCT 2021 : International Conference on Synthetic Fibers and Clothing Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Synthetic Fibers and Clothing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Synthetic fiber
Early experiments
Commercial products
Description
Advantages
Disadvantages
Common synthetic fibers
Animal and plant fibres
Fiber forming materials
Artificially manufactured fibres
Manufacturing process
Manufacturing process of rayon

Spinning methods
