

CALL FOR PAPERS

ICTPGTM 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTPGTM 2021 : International Conference on Tidal Power Generation Technologies and Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tidal Power Generation Technologies and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Tidal power generation technologies
Tidal energy
Dynamic tidal power
Tidal power plants
Tidal power generation
Tidal power utilising system
Tidal power generation system
Generation of tidal energy
Generating methods
Tidal stream generator
Tidal barrage
Tidal lagoon
Modern technology

Ocean power technologies
US and Canadian studies in the
twentieth century
Tidal power development in the UK
Current and future tidal power
schemes
Tidal power issues
Environmental concerns
Renewable energy
Electricity generation
Tidal turbines
Tidal barrage
Tidal lagoon
Corrosion
Fouling
