

CALL FOR PAPERS

ICAFCC 2021
Jan 11-12, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFCC 2021 : International Conference on Adaptation of Forests to Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Adaptation of Forests to Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptation of forests to climate
change
Forest management for climate
change
Climate change studies for forests
Adaptation response
Adaptive management

Disturbance
Resilience
Sustainable forest management
Scenarios and case studies
