

# CALL FOR PAPERS

**ICALPZD 2021**  
**Jan 11-12, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICALPZD 2021 : International Conference on Advanced Livestock Production and Zoonotic Diseases is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Livestock Production and Zoonotic Diseases. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Livestock health: problems and challenges  
Livestock production and management  
Emerging and re-emerging infectious and zoonotic diseases  
Diagnostics, prognostics and therapeutics  
Neonatal health care and herd management  
Trends in molecular diagnosis  
Role of women in livestock production  
Role of indigenous livestock in sustainability  
Climate change and adaptation options for sustainable livestock production  
Veterinary extension services and awareness  
Accreditation and attestation of veterinary institutes

Devising course curricula for global challenges  
Integration of animal Welfare in veterinary education  
Nutritional strategies and requirements in climate change scenario  
Livestock production systems in tropics  
Animal feed resources and forage conservation  
Breeding strategies for sustainability  
Physiological particularities of livestock  
Assisted reproductive techniques  
Endocrine disruptors and developing world  
Optimal fertility rate of livestock in developing nations
