

# CALL FOR PAPERS

**ICPSWM 2021**  
**Jan 11-12, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSWM 2021 : International Conference on Pollution Solutions and Waste Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pollution Solutions and Waste Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Pollution  
Pollution Sources and Effects  
Pollution Analysis  
Pollution Ecology and Toxicology  
Environmental Protection  
Human Impact on the Environment  
Environmental Sustainability and Development  
Pollution Solutions  
Recycling and Waste Management

Bioenergy and Biofuels  
New Perspectives of Renewable Energy  
Energy Transformation from Renewable Energy System to Grid Reliability and Maintenance of Sustainable Energies  
Application Of Renewable Energy  
Statically methods for pollution Risk assessment  
Trending Market in Pollution Control
