

CALL FOR PAPERS

ICAST 2021
Jan 28-29, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAST 2021 : International Conference on Advances in Seed Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Seed Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seed technology	Seed testing laboratory
Seed technology in crop production	Seed production
Seed dormancy	Seed processing
Quality seed production	Seed certification
Seed demand forecasting	Seed testing
Genetic purity in seed production	Seed biology
Certified seed production	Seed storage
Cultivation practices of seed production	Seed entomology
Field inspection in seed production	Seed pathology
Crop stage for field inspection in seed technology	Seed marketing
Seed production techniques
