

# CALL FOR PAPERS

**ICBSESP 2021**  
**Jan 07-08, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSESP 2021 : International Conference on Sustainable Bioresource Engineering and Separation Processes is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Bioresource Engineering and Separation Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioresource engineering and technology  
Biomass resource and its utilisation  
Biorefinery foundations and processes  
Engineering aspects of pulping  
Chemistry of biomass processing  
Processing fibres into paper  
Control of processes and quality  
Minimising environmental impact

Recycling and contaminant removal  
Performance of paper products  
Sustainable processing  
Separation processes  
Environmental impact assessment and management systems  
Nanostructure of materials  
Materials and the environment
