

CALL FOR PAPERS

ICNFT 2021
Jan 07-08, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNFT 2021 : International Conference on Nanotechnology, Fibers and Textiles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanotechnology, Fibers and Textiles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|---|---|
| Nanofabrics | |
| Nanotechnology textiles | |
| Nanoscopic fibers | |
| Nanofibers | |
| Applications of nanotechnology in textiles | The impact of nanotechnology on polyesters, polyamides and other textiles |
| Nanofibers and nanotechnology in textiles | Perspective on development of nanotechnology in textiles |
| Characterization techniques for nanotechnology applications in textiles | Carbon nanofiber |
| Nanotechnology applications in textiles | Nanofiber seeding |
| Potential advantages and risks of nanotechnology for textiles | Synthesis |
| Nanotechnology innovation and applications in textiles industry | Potential applications |
| Applications and future of nanotechnology in textiles | Self-twisting |
| Nanotechnology in textiles finishment | Sol-gel |
| Modification of cotton textiles with nanostructural zinc particles | Electrospinning |
| | Applications |
| | Textile manufacturing |
| | Drug delivery |
| | Tissue engineering |
