

CALL FOR PAPERS

ICGEST 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEST 2021 : International Conference on Green Energy Sciences and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Energy Sciences and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy, science and technology
Environment and green technology
Bio energy conversion technologies
Bio fuels in transport
Bio mass
Biogas
Biomass industries
Climate change
Emerging perspectives of renewable energy
Energy saving in buildings
Environment and green technology
Gasification

Global warming
Hydro power systems
Low energy architecture
Power-to-gas technologies
Renewable energy economics
Renewable energy gas technology
Renewable energy resources and systems
Renewable energy, energy efficiency and systems and grids
Solar energy technologies
Waste to energy
Wind energy technologies
