

CALL FOR PAPERS

ICNMEA 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMEA 2021 : International Conference on Nanoscale Mechatronics and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanoscale Mechatronics and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanoscale mechatronics
Micro-nano mechatronics
Mechatronics at nanoscale
Nanoscale control designs for systems
Nanoscale mechatronics and manufacturing technology

Nanopatterning process technology
Nanoprobe application technology
Nanofabrication equipment
Nanoprocess simulation, measurement, and evaluation technology
