

CALL FOR PAPERS

ICABE 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABE 2021 : International Conference on Advances in Biosynthetic Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biosynthetic Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biosynthesis and biosynthetic engineering
Biosynthetic engineering and technologies
Biosynthetic mechanisms and biocatalysis
Biosynthetic engineering and green manufacturing
Biosynthetic engineering of natural products
Microbial genomics and biosynthetic engineering
Structural analysis and biosynthetic engineering

Synthetic biology
Biochemistry
Microbiology
Molecular biology
Protein engineering
Metabolic engineering
