

CALL FOR PAPERS

ICABSD 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABSD 2021 : International Conference on Advanced Biotechnology for Sustainable Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Biotechnology for Sustainable Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algal biotechnology for sustainable development
Metabolic engineering and synthetic biology for production of bulkchemicals, value-added compounds, and fuels

RNA interference and novel technologies for bioprocess development
In vitro or in vivo protein expression and protein biotechnologies involving NMR, LC-MS, and so forth
