

# CALL FOR PAPERS

**ICAGGT 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGGT 2021 : International Conference on Advances in Genetic and Genomic Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Genetic and Genomic Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The importance of genetics and genomics to the health  
Proteomics  
Pharmacogenetics and pharmacogenomics  
Personalized medicine  
The use of pharmacogenomics information

Stem cell therapy  
Cloning  
Gene testing  
Gene therapy  
Genetic counseling
