

CALL FOR PAPERS

ICAIM 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIM 2021 : International Conference on Automation and Intelligent Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automation and Intelligent Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing and Service Systems
Flexible Automation and Intelligent
Manufacturing
Industrial Engineering and
Operations Management
Business Strategies and
Intelligence in Manufacturing and
Services
Knowledge, Change, and Risk
Management
Value Creation by Sustainable
Manufacturing
Green and Lean Supply Chains,
Logistics, and Procurement
End-of-Life Management and Reverse
Logistics
Manufacturing Paradigms (FMS/RMS,
Lean, Agile, etc.)
Manufacturing Education and
Training
Modelling and Simulation
Production Planning and Scheduling

Services Science, Management, and
Engineering
Integrated Product and Production
Development
Product Design/Design for
Manufacture/Assembly
Design for X
Modular and Configurable Structures
and Development Processes
Product Development, Rapid
Prototyping, Concurrent
Engineering
Value Creation for Customers and
Stakeholders
Total Quality Management
Product and Production System Life
Cycle Assessment and Interaction
Manufacturing Technology and
Processes
Cognitive and Artificial
Intelligence in Manufacturing
Biological Engineering, Medical
Equipment and Healthcare Systems
