

# CALL FOR PAPERS

**ICAIMT 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIMT 2021 : International Conference on Advanced Intelligent Mechatronics and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Intelligent Mechatronics and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent mechatronics	Automotive systems
Advanced mechatronic systems	Bioengineering
Mechatronics control and automation	Data storage systems
Manufacturing systems	Electronic packaging
Intelligent machining control and precision mechatronics	Fault diagnosis
Micro and nanomachining	Human-machine interfaces
Rehabilitation and surgical robotics	Industry applications
Intelligent aids for the elderly and disabled	Information technology
Advanced control algorithms and methods in mechatronics	Intelligent systems
Intelligent MEMS system	Machine vision
Smart sensors and actuators	Micro-electro-mechanical systems
Visual inspection, visual serving and tracking, sensor fusion and machine vision	Micro/nano technology
Smart machines and systems	System identification and adaptive control
