

CALL FOR PAPERS

ICAPC 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPC 2021 : International Conference on Advances in Porous Ceramics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Porous Ceramics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Porous ceramics
Processing and properties of advanced porous ceramics
Processing, microstructure, properties, applications of porous ceramics
Porous ceramic and piezocomposites: modeling, technology, and characterization

Superplastically foaming method to make closed pores inclusive rigid ceramics
Direct foaming techniques for the preparation of cellular ceramics
Losses and dispersion in porous piezoceramics
Optical phenomena in porous percolating systems
