

CALL FOR PAPERS

ICBDPR 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDPR 2021 : International Conference on Big Data in Psychological Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Big Data in Psychological Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Methodological and statistical issues in collecting, handling, processing, and analyzing big data in psychology
Applications and illustrations of how big data are used to address psychological research questions
Psychological interventions making use of big data
Inference models taking big data into account

Comparison of big data versus 'traditional' data sources
Combining traditional data sources with big data
Implications of big data for research infrastructures in psychology and related areas
