

CALL FOR PAPERS

ICCDCTA 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDCTA 2021 : International Conference on Carbon Dioxide Conversion Technologies and Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Carbon Dioxide Conversion Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon dioxide conversion
Reaction mechanisms in carbon dioxide conversion
Electrochemical carbon dioxide conversion systems
Solar powered carbon dioxide conversion
Carbon dioxide conversion over carbon-based nanocatalysts
Interaction of carbon dioxide conversion with electron-rich moieties

Insertion of carbon dioxide conversion into e-x bonds
Interaction of carbon dioxide conversion with c-c multiple bonds
Reaction mechanisms in the direct carboxylation of materials
Carbon dioxide conversion in high temperature reactions
Enzymatic conversion of carbon dioxide conversion
Thermodynamics and applications of carbon dioxide conversion hydrates
