

CALL FOR PAPERS

ICCDITA 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDITA 2021 : International Conference on Control, Decision and Information Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control, Decision and Information Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control
Automation and control applications
Control design
Control theory
Diagnosis
Signal processing
Discrete event systems
Embedded systems
Energy control and power systems
Fault detection
Hydrogen energy
Hybrid systems
Manufacturing system control, sensors and actuators

Robotics
Decision and optimization
Operational research
Combinatorial optimization
Global optimization
Data envelopment analysis
Reliability
Scheduling,
Supply chain management
Transport optimization
Game theory
Intelligent systems
