

CALL FOR PAPERS

ICCEREC 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEREC 2021 : International Conference on Control, Electronics, Renewable Energy and Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control, Electronics, Renewable Energy and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control Theory and System
Modern and Advance Control
Process Modeling and Optimization
Industrial Control Applications
Neural Networks Control
Fuzzy Logic Control
Genetic Algorithms and Evolutionary Control
Model-Predictive Control
Adaptive and Optimal Control
Intelligent Control Systems
Instrumentation and Measurement
Parallel Computing applications in
Identification and Control
Pattern Recognition

Fault Diagnosis, State-Estimation
and Identification
Sensor and Actuator Devices
Technology and Principles
Modeling and Simulation
Automation System and Applications
Industry Applications
Energy Management in and by
Automated Systems
Home and Building Automation
Manufacturing Systems
Robotics
Programmable Logic Controller
Distributed Systems
Distributed Control System
Process Automation
