

# CALL FOR PAPERS

**ICCRSE 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRSE 2021 : International Conference on Canine Rabies Surveillance and Elimination is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Canine Rabies Surveillance and Elimination. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Canine rabies surveillance, control and elimination

Rabies surveillance and prevention  
Surveillance guidelines for disease elimination

Global epidemiology of canine rabies

Rabies surveillance data and statistics

Molecular epidemiology of Canine rabies

New developments in human vaccines

Rabies control in wildlife

New developments in laboratory diagnosis

Use of monoclonal antibodies for passive immunotherapy

History of rabies prevention
