

# CALL FOR PAPERS

**ICDFDM 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDFDM 2021 : International Conference on Deforestation and Forest Degradation Monitoring is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Deforestation and Forest Degradation Monitoring. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Monitoring forest degradation  
Monitoring deforestation and forest degradation  
Assessing forest degradation  
Monitoring forest degradation in tropical regions  
Monitoring forest degradation by remote sensing

Land-cover change  
Sampling statistics  
Forest carbon pools  
Sustainable forest management  
Monitoring forest degradation for carbon accounting
