

# CALL FOR PAPERS

**ICE 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICE 2021 : International Conference on Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agroecology, sustainable agriculture and rural development  
Biodiversity and Conservation  
Modeling  
Biogeochemical cycling and ecosystem health  
Dynamic Ecological Simulation  
Models (aquatic, terrestrial, energetics, biogeochemical)  
Ecohydrology and watershed management  
Ecological degradation and ecosystem restoration  
Ecological Landscape and Land Use Change Modeling  
Ecological Modeling and Environmental Management (Risk assessment, Flow Analysis, Sustainability, Ecotoxicology, Monitoring and Planning)  
Ecological Modeling for Climate Change  
Ecosystem services and management  
Environmental stress and biodiversity conservation

Global climate change and ecosystem adaptation  
Industrial ecology and green economy  
Landscape pattern, process and sustainability  
Modeling Coupled Natural and Social Systems (Socio-Ecological, Urban, Integrated Assessment)  
Modeling of Ecosystem Services  
Molecular ecology and evolution  
Network Modeling  
Paleoecology, ecological dynamics and environmental assessment  
Systems Ecology  
Urbanization and regional environmental change
