

CALL FOR PAPERS

ICEESS 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEESS 2021 : International Conference on Energy Efficient Sensors and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Efficient Sensors and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Circuit and system level design techniques for sensor network applications
Smart and ultra-low power sensing
Energy-efficient sensors and interfaces
Nano-technology for sensing

Low-power and/or energy efficient temperature sensors
Energy efficient humidity and gas sensors
RF communication and identification for sensors network, smart RFID applications
