

# CALL FOR PAPERS

**ICGUTD 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGUTD 2021 : International Conference on Geochronology and Uranium-Thorium Dating is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geochronology and Uranium-Thorium Dating. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geochronology  
Radiogenic isotopes and geochronology  
Dating methods  
Radiometric dating  
Radiocarbon dating  
Uranium-lead dating  
Uranium-thorium dating  
Potassium-argon dating  
Electron spin resonance  
Fission-track dating  
Cosmogenic nuclide geochronology  
Luminescence dating

Incremental dating  
Paleomagnetic dating  
Magnetostratigraphy  
Chemostratigraphy  
Correlation of marker horizons  
Differences from chronostratigraphy  
Biostratigraphy, geochronology, and paleoclimatology  
Dating by parent isotopes  
Dating by parent-daughter isotopes  
Radioactive chains  
Dating by extinct radioactivity  
Determining geologically useful radioactive decay constants
