

CALL FOR PAPERS

ICHPSS 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHPSS 2021 : International Conference on Hybrid Power Systems and Solutions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hybrid Power Systems and Solutions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hybrid power systems	Multilevel converters
Micro-hybrid power systems	Matrix converters
Design, analysis and performance of hybrid power systems	Emerging topologies
Distributed and co-generation systems	Power converters modelling
Wind energy system	Simulation and control
Marine renewable energy	Power factor correctors
Biomass energy and geothermal resources	EMI and over-voltage protection
Solar energy systems	Active filters and harmonics
Hydro power plants	Power supplies
Hydrogen systems and fuel cells	Power electronics components and packaging
Soft switching converters	Reliability and fault tolerance
