**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICICT 2021 : International Conference on Industrial Chemistry Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Chemistry Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial chemistry  
Petroleum and organic industrial chemistry  
Metallurgical industrial chemistry  
Industrial polymers, metals and composites chemistry  
Industrial pharmaceutical and cosmetic chemistry  
Applied chemistry  
Nanotechnology involved in industrial chemistry  
Industrial electrochemistry

Industrial photo chemistry  
Textile industrial chemistry, textile engineering and apparel industry  
Nuclear chemistry in industry  
Production of food and beverages  
Adhesive industrial chemistry  
Industrial processes, white biotechnology and green chemistry  
Industrial materials and applications  
Chemistry in plastic, glass and leather industries
