

CALL FOR PAPERS

ICISEWC 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISEWC 2021 : International Conference on Information Systems Engineering and Wireless Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Systems Engineering and Wireless Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless communications
OFDM, CDMA and spread spectrum
Modulation, coding and diversity
Signal processing for wireless
communications
B3G/4G Systems, WiMAX, WLAN and
WPAN
Channel model and characterization
Multi-hop and cooperative
communications
Network technologies
Wireless and mobile networking
Wireless sensor networks
Cognitive radio networks
Ad hoc, sensor and mesh networking

Next-generation networking and
internet
Wireless network security and
privacy
The networked society
Big data
Decision support
Business analytics and knowledge
management
Business process management
Cloud computing services
Social media research and
analytics
Economics and value of IS
Enterprise modeling
Enterprise systems crossing
organizational boundaries
