

CALL FOR PAPERS

ICLMP 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMP 2021 : International Conference on Landslide Mitigation and Protection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Landslide Mitigation and Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Landslide mitigation	
Landslide mitigation techniques	
Landslide mitigation action plan	
National landslide hazards mitigation strategy	
Landslide technology	
Landslide mitigation strategies	
Landslide mitigation and its risk controlling	
Geospatial technology in landslide mitigation	
Landslide hazard mitigation	
Landslide propagation and mitigation	
Development of socio-technical approach for landslide mitigation	
Efficient landslide mitigation strategies	
Landslide analysis and mitigation	
	Rock slopes
	Reinforcement measures
	Shotcrete
	Drainage
	Geometry modification
	Protection measures
	Soil slopes
	Geometry modification
	Surface erosion control
	Draining techniques
	Shallow drainage
	Deep drainage
	Large diameter drainage wells with sub-horizontal drains
