

CALL FOR PAPERS

ICLSE 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSE 2021 : International Conference on Land Surveying Equipment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Land Surveying Equipment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Land surveying
Principles and applications
Topographic surveying and mapping
Landscape features for general mapping purposes
Survey of local topographic features for engineering purposes
Cadastral surveying
Surveying
Cartography
Geodesy
Mapping and remote sensing

Land surveying and planning
Land surveying and GPS
Land surveying equipment
Land surveying remote sensing
Innovative land surveying and land registration
Terrain analysis and remote sensing
Mapping and monitoring
Remote sensing and image interpretation
Land surveying standards and procedures
