

CALL FOR PAPERS

ICMCAD 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCAD 2021 : International Conference on Modern Control Algorithms and Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modern Control Algorithms and Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modern control algorithms
Digital control algorithms
Complex control algorithms
Adaptive systems and control
Control systems
Termination detection and approximation
Leader election

Echo algorithm
Consistent snapshot
The proportional integral derivative (PID) controller
Programming and deployment options
Advanced control design techniques
High performance embedded control
LabVIEW software and the PID controller
