

# CALL FOR PAPERS

**ICPHMDM 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPHMDM 2021 : International Conference on Population Health Management and Disease Management is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Population Health Management and Disease Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Population health management  
Population identification  
Risk stratification  
Intervention identification  
Patient engagement  
Outcomes measurement

Annual health screenings  
Disease management  
Effective population care  
Patient-centered medical homes  
Population health management and cancer screening  
Technology-enabled population health management
