

# CALL FOR PAPERS

**ICPRISP 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPRISP 2021 : International Conference on Pattern Recognition, Image and Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pattern Recognition, Image and Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Image acquisition and Medical Image processing  
Pattern Recognition and Analysis  
Visualization  
Face Recognition and Super-resolution Imaging  
3D and Stereo Imaging  
Image Coding and Compression  
Image Segmentation  
Face Recognition  
3-D and Surface Reconstruction  
Analog and Mixed Signal Processing  
Array Signal Processing  
Audio/Speech Processing and Coding  
Digital and Mobile Signal Processing

Statistical and Optical Signal Processing  
Data Mining Techniques  
Motion Detection  
Content-based Image retrieval  
Video Signal Processing  
Watermarking  
Detection and Estimation of Signal Parameters  
Signal Identification  
Nonlinear Signals and Systems  
Time-Frequency Signal Analysis  
Signal Reconstruction  
Spectral Analysis  
Filter Design and Structures
