

# CALL FOR PAPERS

**ICQNA 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQNA 2021 : International Conference on Quantum Nanoscience and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Nanoscience and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum nanoscience  
Nanometer scale devices and materials  
New physics and novel applications of quantum effects  
Quantum nanoscience and nanostructures  
Applications of quantum mechanics

Production and design of nanodevices and nanoscale materials  
Quantum marvels and standards  
Discretization, superposition, trap and entanglement  
Quantum computer, quantum computation and complex systems
