

CALL FOR PAPERS

ICRACP 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRACP 2021 : International Conference on Recent Advances in Cancer Pharmacology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Cancer Pharmacology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Functional genomics in drug discovery and development
Therapeutic antibodies and cancer vaccines
Nanotechnology in cancer drugs
Anticancer drugs in global market: economy and their cost effectiveness
Novel drug delivery system and cancer drug designing
Cancer Microenvironment
Chemo Drugs
Stealth Nanoparticles and Tumor Penetrating Peptides
Vector/Host Interaction
Early Diagnosis and Imaging
Advances in Nanotechnology
Cancer biomarker
Types of cancer biomarkers

Uses of biomarkers in cancer research
Uses of biomarkers in cancer medicine
Lung cancer biomarkers
Prostate cancer biomarkers
Breast cancer biomarkers
Advanced biomarkers for cancer
Cancer stem cells and metastatic growth
Metastatic cell growth and adhesion: Apoptosis and cell division
Cancer Pathology
Cancer pathology
Metastatic cancer stem cells
Tumor immunology and immunotherapy
Tumor microenvironment and research
Tumor varieties: Benign, pre-malignant, and malignant
