

# CALL FOR PAPERS

**ICRTPM 2021**  
**Feb 08-09, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTPM 2021 : International Conference on Rail Transport Planning and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rail Transport Planning and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rail transport systems  
Rail transport planning and management  
Rail transport, advantages and disadvantages  
Rail-based transportation systems  
Transport organization and technology  
Advanced rail technologies  
Railway timetable and traffic  
Technologies, theories and engineering applications of rail transit systems  
Rail vehicles, infrastructure, traction power, operation, and communication

Dynamics and mechanics of rail vehicles  
Rail infrastructure planning and design, construction, operation, inspection, and maintenance  
Train operation, control, scheduling and management  
Rail electrification, signaling and communication  
Environmental impacts  
Rail transport infrastructure  
Traffic control and IT for railways  
Traction and rolling stock  
Materials engineering and recycling in the rail transport
