

CALL FOR PAPERS

ICTCTM 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCTM 2021 : International Conference on Topographic Cartography and Terrain Mapping is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Topographic Cartography and Terrain Mapping. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Topographic cartography
Topographic mapping
Direct surveying and remote sensing
for topographic mapping
GIS for topographic mapping
Topographic methods and map
symbols

Information and data management
applications for topographic
mapping
Topological modelling
Photogrammetry in topographic
cartography
Aerial photography and field
surveying for topographic mapping
Historical topographic maps
