

CALL FOR PAPERS

ICWEWFHO 2021
Feb 08-09, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEWFHO 2021 : International Conference on Wood Energy and Wood Fuel Heating Options is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wood Energy and Wood Fuel Heating Options. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wood energy
Wood fuel
Classification of woody biomass
Policy framework for wood energy
Wood fuel sources
Wood fuel heating options
Harvesting and storage options
Central heating systems
Pellet-based systems
Wood chip-based systems
Log boilers
Fireplaces and stoves
Forest energy plantations

Participatory forest management
Trees outside forests and
agroforestry
Wood harvesting and conversion
residues
Preparing and storing
Hardwood or softwood
Collection and consumption
Wildlife habitat improvement
Heating value of firewood
Environmental impacts
Fuelwood participation in total
fellings
Fuelwood consumption in the world
Combustion by-products
Combustion by-product effects on
human health
