

CALL FOR PAPERS

ICABE 2021
Feb 04-05, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABE 2021 : International Conference on Advances in Biogeocivil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biogeocivil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biogeocivil engineering
Environmental biology and
geotechnics
Carbonate precipitation for ground
reinforcement
Fixation and distribution of
bacterial activity
Microbial carbonate precipitation
in construction materials

Biopolymer-induced mineralization
Potential soil reinforcement by
biological denitrification
Bio-mediated soil improvement
Bioengineering ground improvement
Self-healing agent for the
development of sustainable concrete
