

CALL FOR PAPERS

ICDMWC 2021
Feb 04-05, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMWC 2021 : International Conference on Data Mining and Wireless Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data Mining and Wireless Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Data Mining
Ethics of Data Mining
Data Mining Techniques
Data Classification and Clustering
Risk Management and Analysis
Feature Extraction and Data
Reduction
Abnormally and Outlier Detection
Optimization Techniques
Multi-Task Learning
Text and Web Mining
Data Cleaning and Processing
Data Mining for Network/Cyber
Securi
Data Mining for Complex Dataset

Data Mining for Climate Change and
Impacts
Data Mining for Customer Retention
Data Mining for Social Network
Analysis
Data Mining for Business
Intelligent
Data Mining for Traffic Control
Data Mining for Network Intrusion
Detection
Data Mining and Cloud Computing
Online Algorithms for Data Mining
Wireless Communications
Bioinformatics and Scientific
Computing
Energy Minimization in
Cluster-Based Wireless Sensor
Networks
Mobile IP Networks/ Ad-hoc
Networks
