

CALL FOR PAPERS

ICEEE 2021
Feb 11-12, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEE 2021 : International Conference on Environment, Engineering and Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environment, Engineering and Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environment, engineering and energy	Bio-diesel fuels
Wind energy technologies	Hybrid energy systems
Environmental management systems	Integrated energy systems
Solar energy technologies	Wind energy
Hydro power	Hydroelectric and geothermal power
Global warming and climate change	Energy from tides and waves
Biomass industries and energy	Solar electricity and PV applications
Management of ecosystems, environment and water resources	Solar cell technology
Modelling and assessments	Nanotechnology applications
Education for sustainability	Nuclear materials and fuels
Green energy	Alternative fuels
Bio gas and biomass
