

CALL FOR PAPERS

ICETM 2021
Feb 11-12, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETM 2021 : International Conference on Engineering Turbulence and Measurements is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Turbulence and Measurements. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering turbulence
Engineering turbulence modelling
and experiments
Flow turbulence
Equations of fluid in motion
Statistical description of flow
turbulence
Turbulence scales

Turbulence simulations and
modeling
Wall turbulence
Grid turbulence
Vortex dynamics
Sphere and circular cylinder in
cross flow
Premixed turbulent flame
propagation
