

# CALL FOR PAPERS

**ICSTS 2021**  
**Feb 11-12, 2021**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTS 2021 : International Conference on Space Transportation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Transportation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space transportation  
Space transportation systems and technologies  
Commercial space transportation  
Space transportation and industrial applications  
Intelligent technologies in space transportation  
Launch systems and propulsion  
Possible destinations for space tourism  
Commercial space transportation forecasts

Integrated design for space transportation system  
Future air-space transportation technology  
System vehicles  
Earth-to-orbit shuttle  
Space tug  
Nuclear ferry  
Space station modules
