

# CALL FOR PAPERS

**ICCNA 2021**  
**Feb 15-16, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCNA 2021 : International Conference on Computational Nanoscience Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Nanoscience Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational nanotechnology and nanoscience  
Simulations of nanostructures, nanomaterials and nanodevices  
Electronic structure calculations  
Simulations of electronic  
Optical and mechanical properties of nanostructures

Simulations of electronic  
Thermal, spin and molecular transport processes  
Multiscale and multiphysics simulations  
Computational design and evaluation of engineered nanomaterials and nanostructures  
Simulation of nanodevice processing and performance
