

CALL FOR PAPERS

ICGTDM 2021
Feb 15-16, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGTDM 2021 : International Conference on Game Theory and Decision Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Game Theory and Decision Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Game theory	
Game theory and decision sciences	
Game-theory and mechanism design for decision	
Building decision systems	
Dynamic control, learning, and optimization approaches	
Data analysis	
Decision making and decision theory	
Socio-technological and behavioral approaches to decision	
Risk assessment and risk management	
History of game theory	
Game types for decision and decision management	
Description and modeling of decisions by game theory	
Cooperative and Non-cooperative	
	Symmetric and Asymmetric
	Zero-sum and Non-zero-sum
	Simultaneous and Sequential
	Perfect information and imperfect information
	Combinatorial games
	Infinitely long games
	Discrete and continuous games
	Differential games
	Many-player and population games
	Stochastic outcomes (and relation to other fields)
	Metagames
	Pooling games
	Representation of games
