

# CALL FOR PAPERS

**ICIMST 2021**  
**Feb 15-16, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMST 2021 : International Conference on Innovative Methods in Software Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Innovative Methods in Software Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in test design techniques  
Model based testing  
Model checking and verification  
Runtime verification  
Automated testing

Security testing  
Integration testing techniques  
Testing techniques in context of  
Continuous Integration and  
Delivery  
Testing specifics of mobile  
applications  
Quality metrics, economics and ROI  
of testing
