

CALL FOR PAPERS

ICLDMCP 2021
Feb 15-16, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLDMCP 2021 : International Conference on Livestock Disease Management, Control and Prevention is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Livestock Disease Management, Control and Prevention. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Livestock disease management
Livestock infectious diseases
Farm livestock disease management
Disease epidemiology and farm decisions
Externalities and policy response to livestock disease
Emergency management of livestock diseases
Prevention and control of livestock diseases
Proteomic biomarkers in livestock disease management

Controls of animal diseases
Animal disease detection and diagnosis
Emerging animal diseases
Animal bacterial diseases and viruses
Biosecurity applications in disease control
Farm health planning
Diseases in specific livestock species
Farm disease prevention, control, and management
